

# TOE BY TOE®

## Phonics test

### Purpose of the phonics test:

This test is designed to evaluate the student's phonetic knowledge. Students who struggle to pronounce sounds / nonsense words correctly will benefit from using Toe By Toe.

Instructions for the TBT phonics test:

Working from left to right ask your student to read each sound / nonsense word.

The assessor marks the correct responses with a tick and incorrect ones with a dot.

Take the students first answer. However, if your student makes a mistake and rapidly self corrects then count this as a tick.

It is critical that you **DO NOT COACH YOUR STUDENT DURING THE TEST.**

There are 40 sounds/nonsense words within this test split into sections.

### TOE BY TOE Phonics Test

Name of student:.....

Date of Birth:.....

Actual age of student: (years/ months):.....

Name of Assessor:.....

Test date before starting Toe By Toe: .....
